MEMORANDUM FOR THE RECORD

Subject: Facilities available for President's
Guam Conference

1. Admiral Sharp called at 0710Z to provide information on facilities available at Guam for the Presidents conference. He indicated that a survey had been made of facilities available at Anderson Air Force Base and at Nimitz Hill and that the latter place is preferred.

a. Quarters available are adequate to take care of the official party, but accommodations for the press will be difficult.

b. For the official party, there are 5 houses available at Nimitz Hill, varying from 1 to 3 bedrooms. Also, there is a BOQ with 3 two-room suites and 24 single rooms. Less austere BOQs are also available - one 17 room building and one 30 room building.

c. For the press, accommodations will be most difficult at best at both Anderson and Nimitz Hill. Facilities available are enlisted barracks, open bay type, 200 bunks. There are no hotels available on the island and the available motels are filled.

d. For the conference itself, the office of Admiral Byrd (Commander Naval Forces, Marianas) should suffice. His office is very large and will accommodate a table with 10-15 persons around it. The room can seat approximately 30 more.

e. For briefings, a small theater is available in the Headquarters building and should be adequate. The officers club could be used if larger facilities are needed.

f. Transportation on the island will be adequate for the official party, but the press will have to rent vehicles. Helicopters will be in short supply and, depending on requirements, will have to be shipped or flown in, unless an ASW carrier is ordered to the area.

2. Admiral Sharp stated that the above information is being summarized in a message to CJCS.
